Sum times u dnt feel like playing cs.. means u want to play but u dnt get shots its all in head.. 1 method which alwaz work for me is "watch 1 forest demo or his video n then go to play" .. it luks like very silly thing , but believe me its very helpful.. this was a general thing , now come specifically to all things which make u play cs better.. i will try to list all in following points :

1 - To play wit Rifles :

use m4a1 or cv47 doesnt make mch difference.. sumtimes u can b gud at m4a1 n sumtimes at cv47.. it depends how u startd ur game fr d day.. obviously both guns have their own specialities.. m4a1 has more bullets firing or should i say less recoil in a particular time than cv47.. on other hand cv47 got more damage per bullet... alwaz try to hit 1-1 bullet in ak (not burst mode like 2-3 bullets) if u get shots in 1-1 bullet , u ll rock wit ak dat day.. n in m4a1 try to play wit silencer , it got more accuracy rather than damage.. bt this also depends on person.. sum ppl can play witout silencer better [:D] .. rest major things u all guys know i guess.. like spraying n all things blabla..

2 - To play wit Magnum :

Very effective gun if u know how to drag n get shots.. basically to play CS better u need to drag.. in all guns.. in case of magnum u got only a single bullet to hit.. so it increases ur accuracy if u get shots.. so its better to practice wit magnum 1st than rifles.. i am saying "better" , it doesnt means u shudnot practice wit rifles.. dnt overtry

while using mag , this is where evry1 loose it.. alwaz try to hit properly n accurately..

dnt go fr useless unzoom shots.. unzoom shots r fr d time where u dnt get mch time to take zoom.. unzoom shots r never accurate.. so instead of em try quick zoom thing.. hope u all know abt quick zoom (semi zoom)..

rest on d Magnum , i wrote 1 separate article.. do read it.. it ll help u guys fr sure...

3 - this article isnt to make u pro.. u cant jus read n go pro.. try to apply these things in ur game n c d difference..

4 - in clan matches shooting do matters bt not mch.. try to watch demos n c how they ppl shoot..means vat angles they take while shooting.. u can kill a person frm many angles.. bt take dat which is safer 1.. means if u miss ur shot there ll b a less probability of other person to kill u.. hope u gt d point ?

5 - sum major points i mentioned.. bt there r lotsa things in CS which i cant xplain here.. if u watch demos n try to apply some things in d game.. u ll get to know evrything.. if u watch demos n catch all d points then my all written points r useless , means u dnt need to read all this crap..

Happy Fraging.. if got some doubt , do ask.. or if u got some controvercy do mention here..

i ll try to clear evrything.. bcoz anything i wrote here cant b wrong..

cya ppl..

Manvinder Singh (Ricky)
